

Live Demo — Cue Card

Target: 3:00

TIME	BEAT	DO	SAY (TRIGGER)
0:00 0:15	HOOK	Screen already open — parent dashboard, logged in as Amaka. No clicking.	<i>"That parent has been invisible to every school app ever built. Until now."</i>
0:15 0:45	AI INSIGHT	Click "Get AI insight." Let it generate (3–5s).	<i>"Real AI, reading her data, live. Not a template."</i>
0:45 1:15	LANGUAGE + VOICE	Tap Yorùbá , regenerate. Click "Listen to summary" — keep talking while it loads. ⚠ can take ~15–20s — narrate through it, don't wait in silence	<i>"She doesn't have to read. She just listens." (audio lands here)</i>
1:15 1:45	CHAT	Open the chat bubble. Type a real question, send.	<i>"She doesn't call the school office. She just asks."</i>
1:45 2:15	SCHOOL SIDE	Switch to the school admin dashboard.	<i>"Every school that joins brings hundreds of parents. That loop is live."</i>
2:15 2:45	CREDIBILITY	No click. Look at them.	<i>"Not a prototype. A real backend, deployed right now, over this room's wifi."</i>
2:45 3:00	CLOSE	No click.	<i>"That parent just got a voice."</i>

Before you walk up

- ☐ Demo school renamed — not "Smoke Test Academy"
- ☐ Pre-warm Groq + YarnGPT backstage (kill the cold-start)
- ☐ Fresh tab, already logged in as parent
- ☐ Wifi confirmed / mobile hotspot on standby
- ☐ Speaker volume checked for the voice beat
- ☐ 60-second screen-recording backup, just in case
